

PARISH OF CHARDSTOCK 1871 CENSUS RG10/2034

The census was carried out on the night of 2nd April 1871 and closely followed the format of the previous censuses taken in 1851 and 1861. The head of the family had to be defined as did the relationship to the head of each person staying in the house that night. The sex of each person was also recorded. Accurate ages were required throughout and were taken from the person's last birthday. For infants under one year, the age was recorded either in months (m), weeks (w) or days (d). The rank, profession or occupation of each person was recorded and "Where Born" had to be completed by giving the county and town or parish of birth. In the 1871 census the column previously used to record any persons who were "Deaf-and-dumb" or "Blind" was expanded to include "Imbecile or Idiot" and "Lunatic". although in practice it was sometimes used to record other infirmities.

It should be remembered that at the time of the census Chardstock formed part of the County of Dorset, as the transfer to Devon did not occur until 1896.

An analysis of the recordings for Chardstock are tabled below, together with comparisons for 1841, 1851 and 1861. The Boarding School/College (1861 and 1871) and the Industrial school (1861 only) have been extracted from the rest of the Parish and are shown separately.

The 1871 census records that the population of the Parish had been restored to 1841/1851 levels and that the contraction caused by economic factors between 1851 and 1861 had been reversed. Compared with 1841 the under 19 age group at 656 was almost identical and, while there were reductions in the 20 to 39 and over 70 age groups, this was more than offset by a significant increase in the 40 to 69 age group. Overall the population in 1871 was 1% higher than 1841 and 2% higher than 1851

Life expectancy was much lower than modern times and, rather surprisingly, the number of people over 80 years of age dropped steadily from 16 in 1841 and 1851 to just 7 in 1871. The oldest residents in the 1871 census, both aged 88 were Lucy Bowditch living at Brockfield and William Turner a retired farmer living with his 65 year old daughter at Hockeys.

After discounting those associated with the church or schools, in 1871 only 33 people were recorded as having been born outside the adjoining counties of Devon, Dorset and Somerset.

The following transcript was made by members of CHRG from copies of the original documents. When extracting information from this transcript, the following points should be noted:

The Parish of Chardstock was subdivided into three Enumeration Districts, Nos. 1, 2 and 3. The return for each Enumeration District was compiled by a different person and this resulted in a lack of consistency across the complete return. Also, most second forenames are recorded by just a capital letter, rather than the full name.

Recurring problems in the census return are the treatment of “three generation” families, which should have been shown either as two separate households, each with a head of the family, or as a single family, with a single head, to whom each member of the household is related and the use of Daughter/Son in Law instead of the correct term Stepdaughter/son. There are many cases where the census return has been incorrectly completed. “Notes” have been added to correct any obvious errors and to identify multi-occupancy dwellings.

For the “Relation To Head” column relationships are given in full wherever space permits. When it does not, the following abbreviations are used:

Dau	Daughter
Gson	Grandson
GDau	Granddaughter
GFather	Grandfather
GMother	Grandmother
SonLaw	Son-in-Law
DauLaw	Daughter-in-Law
MothLaw	Mother-in-Law
FathLaw	Father-in-Law
BroLaw	Brother-in-Law
SisLaw	Sister-in-Law
Appren	Apprentice
Asst	Assistant
Govr	Governer
Govs	Governess
Hkeeper	Housekeeper
NMaid	Nursemaid
Serv	Servant

Shortening of Christian names has been avoided wherever possible with full names being given in the transcription; an exception being “Jos”, as this could refer to either Joshua or Joseph. Also, full stops have not been used in names, thus Wm. C. Larcombe in the census return appears as William C Larcombe. This measure is designed to assist word search software programmes. By the same logic the town or Parish of birth is given in full, whenever possible.

In the transcription the column headed “Condition” in the census return uses the abbreviations M for Married, U for Unmarried and W for Widow or Widower.

In cases where other research has produced an alternative to the transcribed version, that alternative is shown alongside the transcribed version in [] brackets provided the alternative has an equal or greater likelihood of being the correct or preferred version.

To save space and achieve consistency, the place of birth is given first, followed by the county, indicated by the use of the “Chapman County Code” system. The codes used in this Census are listed below:

CAM Cambridgeshire	NTH Northamptonshire
CON Cornwall	OXF Oxfordshire
CUL Cumberland	SOM Somerset

ESS Essex	SRY Surrey
GLS Gloucestershire	SSX Sussex
HAM Hampshire	WAR Warwickshire
KEN Kent	WIL Wiltshire
