

1891 CENSUS CHARDSTOCK AND ALL SAINTS

Welcome to our revised layout. All information relating to the 1891 census is now shown in a single file of six parts and the listing has been expanded to include properties which are within both the Ecclesiastical Parish of All Saints and the Civil Parish of Axminster.

- Part 1 Properties within the Civil Parish of Chardstock District 1 (pages 2 to 13)**
- Part 2 Properties within the Civil Parish of Chardstock District 2 (pages 13 to 31)**
- Part 3 Properties within the Civil Parish of Chardstock District 3 (pages 31 to 42)**
- Part 4 Properties formerly a detached part of Chardstock, which were transferred to the Civil Parish of Membury by 1891, but remain in the Ecclesiastical Parish of Chardstock, St Andrew's (pages 42 to 44)**
- Part 5 Properties within both the Civil Parish of Axminster and the Ecclesiastical Parish of All Saints (pages 44 to 52)**
- Part 6 Analysis of censuses 1841 to 1891 for the Civil Parish of Chardstock (page 53)**

The census was carried out on the night of 5th April 1891 and followed the format of the previous censuses taken since 1871. The head of the family still had to be defined as did the relationship to the head of each person staying in the house that night. The gender of each person was also recorded. Accurate ages were required throughout and were taken from the person's last birthday. For infants under one year, the age was recorded either in months (m), weeks (w) or days (d). The rank, profession or occupation of each person was recorded and "Where Born" had to be completed by giving the county and town or parish of birth. The expanded list of infirmities introduced in 1871 was retained, but was sometimes used to record medical conditions not included in the official list.

The 1891 census varied from those taken previously in three ways:

The Occupational Status of each person in employment had to be categorised using three options - Employer (Er), Employee (Ee) or Neither (N).

Single (code S) replaced Unmarried (U).

The number of rooms occupied by each household had to be recorded if less than five.

The Civil Parish of Chardstock was subdivided into three Enumeration Districts and the return for each District was compiled by a different person. This resulted in a lack of consistency across the complete return. In particular, the new category of Occupational Status was clearly not understood by those completing the return and resulted in many errors and omissions. One unfortunate consequence of this change was that farm acreages and the number of

men/boys being employed was no longer recorded.

To save space and achieve consistency, the place of birth is given first, followed by the county. The "Chapman County Code" system is used to identify the counties of Devon DEV, Dorset DOR and Somerset SOM. Other counties are recorded in full. At the time of the census Chardstock formed part of the County of Dorset, as the transfer to Devon did not occur until 1896.

Considerable efforts are made to ensure a high degree of accuracy, but errors can sometimes occur and other sources of information can question or enhance that shown in this transcription. PART 6: ANALYSIS OF THE RECORDINGS FOR THE CIVIL PARISH OF CHARDSTOCK, TOGETHER WITH COMPARISONS FOR EACH CENSUS SINCE 1841

Parish of Chardstock (excluding schools)

Age Group	1841	1851	1861	1871	1881	1891
	No.	No.	No.	No.	No.	No.
Under 10	357	360	284	373	290	248
10 to 19	302	284	287	283	252	247

Uninhabited dwellings	15	7	8	5	21	14

a) Due to the way in which the 1891 census was completed, it is not possible to identify all dwellings in multiple occupancy. Examination of the return can provide clues as to other possible households sharing with others.

The 1891 return records that the population of the Parish continued to contract, albeit at a slower rate than between 1871 and 1881. The overall reduction from 1881 to 1891 was 102 persons or 8.3% of the population and from 1871 to 1891 288 persons or 20.4%. Thus in the twenty years to 1891 the population decreased by a fifth. There were significant reductions in all the age groups below 59 with the greatest affected being children aged under 10 whose numbers dropped by a third between 1871 and 1891. The figures for 1891 follow the established pattern whereby young adults left the Parish to seek work elsewhere. The population was divided evenly between the two genders with 565 males and 561 females being recorded in the census.

After discounting those associated with the church or schools, in 1891 only 30 people were recorded as having been born outside the adjoining counties of Devon, Dorset and Somerset.
