

1911 CENSUS CHARDSTOCK AND ALL SAINTS

Welcome to our revised layout. All information relating to the 1911 census is now shown in a single file of four parts and includes properties which are within the Ecclesiastical Parish of All Saints and the Civil Parish of Axminster.

Part 1 Properties within both the Civil Parish of Chardstock and the Ecclesiastical Parish of Chardstock St Andrew's (pages 2 to 37)

Part 2 Properties within both the Civil Parish of Chardstock and the Ecclesiastical Parish of All Saints (pages 37 to 47)

Part 3 Properties within both the Civil Parish of Axminster and the Ecclesiastical Parish of All Saints (pages 48 to 57)

Part 4 Analysis of censuses 1841 to 1911 for the Civil Parish of Chardstock (page 57 and 58)

The census was taken on the night of Sunday April 2nd 1911.

This transcription was made by members of CHRG from images of the original documents. When extracting information from this transcript, the following points should be noted:

The 1911 census was the first to be completed by the head of the household, rather than the Enumerator. Consequently there was a greater lack of consistency with some people being recorded with their Christian name by which they were known, rather than the name by which they were baptised. The Occupational Status of each person (if applicable) had to be shown as Employer (Er), Worker (W) or Own Account (OA). There was clearly considerable confusion about when and how this notation was to be used with many cases of information either being incorrect or missing. Also there was a general lack of understanding regarding the term "working at Home (H)".

The postal address had to be recorded for each dwelling and this created further confusion. Dwellings at the southern end of the South Tithing were geographically located in the Civil Parish of Chardstock, the Ecclesiastical Parish of All Saints and the postal town of Axminster. It is not surprising that this led to many errors, mainly affecting where people were recorded as having been born. In addition to using word search programmes, researchers are advised to scan through each census visually checking names etc. of interest to them.

The information required of married women was sometimes completed by widows, and occasionally by widowers. This was crossed out by the Enumerator, but has been included in this transcript, as it is information useful to researchers.

The Nationality of each person had to be recorded. Every person entered on the Chardstock census was “British subject by parentage”.

To save space and achieve consistency, the place of birth is given first, followed by the county. The “Chapman County Code” system is used to identify the counties of Devon DEV, Dorset DOR and Somerset SOM. Other counties are recorded in full. County boundary changes introduced in 1896 transferred Chardstock from Dorset to Devon and Wambrook from Dorset to Somerset.

Considerable efforts are made to ensure a high degree of accuracy, but errors can sometimes occur and other sources of information can question or enhance that shown in this transcription. Should this occur, please contact us on chrg@btinternet.com and we will do our best to resolve the matter.

PART 4: ANALYSIS OF THE RECORDINGS FOR THE CIVIL PARISH OF CHARDSTOCK, TOGETHER WITH COMPARISONS FOR EACH CENSUS SINCE 1841

An analysis of the recordings for Chardstock is tabled below. The Boarding School/College (1861 to 1881) and the Industrial school (1861 only) have been excluded from the figures. Also a formerly detached part of the Parish of Chardstock at Crawley had been transferred to Membury by 1901. It remained in the Ecclesiastical Parish of Chardstock and was included in the 1901 transcript (11 households and 48 persons), but was excluded from the 1911 census

Parish of Chardstock (excluding schools)

Age Group	1841	1851	1861	1871	1881	1891	1901	1911	
Under 10	357	360	284	373	290	248	229	205	(19.8%)
10 to 19	302	284	287	283	252	247	203	196	(19.0%)
20 to 29	191	186	161	184	150	150	131	140	(13.6%)

Uninhabited dwellings 15	7	8	5	21	14	21	N/A	N/A	

Due to the way in which the 1911 census was completed, it is not possible to identify dwellings in multiple occupancy, nor was any record made of uninhabited dwellings.

The 1911 census recorded 502 male and 531 female persons, compared with 501 male/547 female for 1901 and 565 male/561 female in 1891.
