

CHARDSTOCK ST. ANDREWS CHURCH - BAPTISMS

Sources: 1579 to 1582 Bishop's Transcripts held at Wiltshire Record Office
1597 to 1913 Chardstock Parish Registers held at Devon Heritage Centre

The transcripts for the period 1597 to 1913 were made by members of Chardstock Historical Record Group (CHRG) and are based on the originals of the Parish Registers.

For a small number of entries, the original registers have been damaged and some information is either missing or illegible.

While every effort has been made to ensure that the transcripts are as accurate as possible, errors can sometimes occur. Should you encounter any problems, please contact us by e-mail chrg@btinternet.com and we will do our best to help.

When using this site the following points should also be borne in mind:

Abbreviations have been avoided wherever possible and full stops have not been used in names, thus Wm C. Watts in the register appears as William C Watts in the transcription. This measure is designed to assist word search software programmes.

In cases where other research has produced an alternative to the transcribed version, that alternative is shown alongside the transcribed version in [] brackets, provided the alternative has an equal or greater likelihood of being the correct or preferred version.

Britain changed from the **Julian to the Gregorian calendar** in September, 1752 in order to bring the country into line with Catholic Europe. 11 days were lost between the 3rd and 14th September. 1752. At the same time the official start of the year was changed from 25th March to 1st January. This transcription records baptisms between 1st January and 24th March in those years prior to 1752 as, for example, 12.3.1661/2. The first year (1661) is the date under the Julian or Old Style calendar and the second (1662) that under the Gregorian or New Style calendar.

The child was christened with the surname Miller and the curate used the initials EWM in reference to her.
