

CHARDSTOCK ST. ANDREWS CHURCH - BURIALS

Sources: 1579 to 1582 Bishop's Transcripts held at Wiltshire Record Office
1597 to 2014 Chardstock Parish Registers held either at Devon Heritage Centre, Exeter or St. Andrew's Church, Chardstock

The transcripts for the period 1597 to 2014 were made by members of Chardstock Historical Record Group (CHRG) and are based on the originals of the Parish Registers.

For a small number of entries, the original registers have been damaged and some information is either missing or illegible.

While every effort has been made to ensure that the transcripts are as accurate as possible, errors can sometimes occur. Should you encounter any problems, please contact us by e-mail chrg@btinternet.com and we will do our best to help.

When using this site the following points should also be borne in mind:

Abbreviations have been avoided wherever possible and full stops have not been used in names, thus Wm C. Watts in the register appears as William C Watts in the transcription.

In cases where other research has produced an alternative to the transcribed version, that alternative is shown alongside the transcribed version in [] brackets, provided the alternative has an equal or greater likelihood of being the correct or preferred version.

Britain changed from the **Julian to the Gregorian calendar** in September, 1752 in order to bring the country into line with Catholic Europe. 11 days were lost between the 3rd and 14th September. 1752. At the same time the official start of the year was changed from 25th March to 1st January. This transcription records baptisms between 1st January and 24th March in those years prior to 1752 as, for example, 12.3.1661/2. The first year (1661) is the date under the Julian or Old Style calendar and the second (1662) that under the Gregorian or New Style calendar.

“Here begins from this place the New Register for burials according to the New Act of Parliament”

Named George Rose's Act (1812), it stipulated that all registers had to be pre-printed with standardised layout and content. For burials this resulted in better information on the place of residence at time of death and ages had to be recorded. However there was not a requirement to record the relationship of the deceased with other family members e.g husband, wife, son or daughter.

1838

The register for 1838, as originally completed, did not record any burials from 21.11.1837 to 6.7.1838. At the end of the year, three entries have been made retrospectively for this period and after an entry

dated 2.2.1839 five further retrospective entries have been made for 1838 for March (two entries), November (one entry) and December (two entries). There are, however, still gaps in recordings from 21.1.1837 to 13.3.1838 and from 23.3.1838 to 17.6.1838. This, plus the low total of 15 burials for 1838, suggests have some burials may be missing from the register for this year..

Notes: This entry, rather strangely, appears between other entries dated February and March 1960. It records that Tom Parris died 8.9.1960 and was buried at St. Andrew's Church 11.9.1960. However, the same Vicar who made the entry in the register, R K Roper, has written the following comments in the margin at the foot of the page: "Tom Parris of Tin-tak Holy City, former licensee of the George Chardstock, died about Dec 11 1960 and was cremated at Weymouth and his ashes left there and has no official entry in this book".

Further investigation has revealed that the Vicar's note above is incorrect. The correct version is: Tom Parris of Tin-Tak, Holy City, former licensee of the George, Chardstock died at Chard & District Hospital on 8.9.1960 and was buried at St. Andrew's Church 11.9.1960.

By presumption "Little" Tom Parris of Street Cottage, Eggmoor Lane, Chardstock possibly died about 11.12.1960, was cremated at Weymouth, Dorset and his ashes left there.
