NOTES

Transcription of the 1911 census was made by members of CHRG from images of the original documents. When extracting information from this transcript, the following points should be noted:

The 1911 census was the first to be completed by the head of the household, rather than the Enumerator. Consequently there was a greater lack of consistency with some people being recorded with the Christian name by which they were known, rather than the name by which they were baptised. The Occupational Status of each person (if applicable) had to be shown as Employer (Er), Worker (W) or Own Account (OA). There was clearly considerable confusion about when and how this notation was to be used with many cases of information either being incorrect or missing. Also there was a general lack of understanding regarding the term “working at Home (H) “. In many cases the entry has been endorsed or altered by the Enumerator. “Notes” have been added to correct any obvious errors.

The information required of married women was sometimes completed by widows, and occasionally by widowers. This was crossed out by the Enumerator, but has been included in this transcript, as it is information useful to researchers.

Shortening of forenames has been avoided wherever possible with full names being given in the transcription. Also, full stops have not been used in names, thus Wm. C. Larcombe in the census return appears as William C Larcombe. By the same logic the town or Parish of birth is given in full, whenever possible.

In the transcription the column headed “Mar” uses the abbreviations M for Married, S for Single and W for Widow or Widower.

In cases where other research has produced an alternative to the transcribed version, that alternative is shown alongside the transcribed version in [] brackets provided the alternative has an equal or greater likelihood of being the correct or preferred version.

To save space and achieve consistency, the place of birth is given first, followed by the county, indicated by the use of the “Chapman County Code” system. The codes used in this Census are listed below:
